

Ardán Audio Limited

Elevate the Speaker World

Ardán Audio Limited is pleased to announce the worldwide introduction of the Ardán Elevation Pro™ Speaker Platform – with eWIPO patent pending protection in 124 countries.

The Ardán Elevation Pro has been designed by a set of skilled engineers in Ireland and Italy. It is the FIRST AND ONLY system of its kind available in the world to deliver :

- **DECOUPLING and ISOLATION** across a wide frequency range
- **ROTATE and TILT** for optimum aural location in REAL WORLD audio environments
- **PASSIONATELY DESIGNED AND ENGINEERED** to rigorous audiophile standards with no development expense spared
- **CRAFTED from AIRCRAFT GRADE** materials in Italy for precision by a top mechanical engineering supplier to The Americas Cup teams.

A PASSION FOR AUDIO

For audio professionals, it's not only a science, a skill-set and an art-form, it's a passion, a lifelong quest of training their ears to hear the most minute difference in the pursuit of perfection..

"The Pro range achieves high standards of audio purism; this is a precision instrument with very fine control and our patents reflect that. Our objective is to enhance a user's existing speaker investment in their own environment so that they truly hear the underlying quality that is already there but not being fully exploited." Brent Finlayson Smith, Ardán Audio Limited co-founder.
